

Abram Hatch's Row
1867

and random laid

When Abram Hatch was assigned by Brigham Young to be the Third Presiding Elder in Provo River Valley in 1867, he soon built a cut red sandstone home on the southeast corner of the intersection of 100 North (90 North) and Main Street. Eventually a row of businesses developed between his first Heber home and his business "A. Hatch & Son" on the northeast corner of the intersection of Center Street and Main Street (12 N. Main Street). *Later, he built a second beautiful cut red sandstone home at 81 East Center (Take a look at back side Zion's First National Bank*

This row of early businesses became known as "Hatch's Row" from Center Street to 100 North on the east side of Main Street.
